

Rutgers Cooperative Extension
2018 RUTGERS 4-H STEM AMBASSADOR PROGRAM

Summer Kickoff Camp - July 9-13, 2018

Rutgers University, New Brunswick, New Jersey

Send applications to Marissa by April 5th via email or mail. (essex4h@njaes.rutgers.edu, or 162 Washington Street, Newark, NJ 07102)

Eligibility: Program applicants must be New Jersey residents living in an urban community of Atlantic, Essex, Mercer, Middlesex, Passaic, or Union county and entering their freshman or sophomore year of high school in the fall of 2018. Candidates for this program must have good grades in school, and have a **strong interest in science, engineering, technology, and community**. Those selected will pay a \$50 registration fee and commit to year-round STEM enrichment programming which requires 50 hours of volunteering from July-June 2019. Those attending the program kickoff this summer will have their participation fees (campus lodging, meals, etc.) paid by Rutgers.

Purpose: Through the Rutgers 4-H STEM Ambassador Program, youth will:

- Serve as 4-H STEM Ambassadors – working with local 4-H staff to teach younger youth at a variety of after-school and other events (The schedule is flexible-50hrs throughout the year).
- Learn about science, explore research occurring on campus, and gain a better understanding of opportunities available in science, engineering, and technology.
- Explore opportunities at Rutgers University, experience campus-life, and learn about post-secondary education.

Program: The summer kickoff of the Rutgers 4-H STEM Ambassador Program is a one-week pre-college residential program that aims to increase youths' science knowledge and skills; provide an introduction to college life; and stimulate interest in science, engineering and technology as potential career paths. Each day, participants will attend a combination of hands-on workshops, excursions, recreational opportunities, and social activities designed to encourage academic success and appreciation of the university experience.

The kickoff of the Rutgers 4-H STEM Ambassador Program will be held on the Cook Campus of Rutgers in New Brunswick, NJ. Housing and meals will be provided in university apartments and dining halls. Parents/Guardians are responsible for their youth's transportation to and from the program (in most cases, the local 4-H program will make arrangements for transportation).

Application Process: Students must submit; student application form, essay and most recent report card. To the 4-H office by April 1st via email or mail. Once your application is received, your local 4-H staff will set-up a date/time for an interview.

If you have questions or need additional information, contact Marissa your local 4-H office, essex4h@njaes.rutgers.edu.
